

# Shenzhen Yesun LED Ltd.

## Specification

**Product name: Shapeable LED strip 2835 SMD 60 led/m**

**Model No.: YS-RS2835W60**

**6mm blue thermal conductive tape is more sticky than S shape adhesive.**

### Parameters

Light source: Epistar chip SMD 2835

PCB: S shape (bendable)

Input voltage: DC12V

High lumens: 91.67 lm/W.

IP rank: IP20 (non-waterproof)

Package: 5 meters/reel

### Warranty

3 years or 15000 hours whichever comes first

### Application

Resin luminous letters, channel letters, LED small letters

### Certification

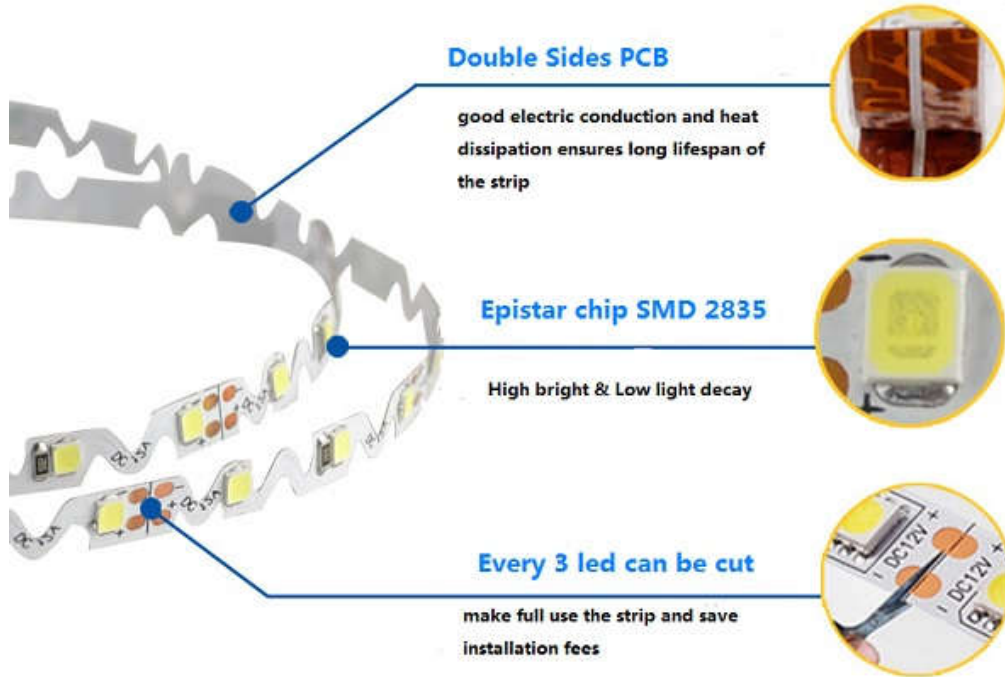

CE, RoHS

Model No.	Color	Color temperature	Lumens/m	LED quantity/m	Power/m	Voltage	View angle
YS-RS2835W60	Pure white	6000-6500°K	660 lm	60 led/m	7.2W	DC 12V	120°
YS-RS2835WW60	Warm white	3000-3500°K	660 lm	60 led/m	7.2W	DC 12V	120°
YS-RS2835CW60	Cold white	10000-12000°K	660 lm	60 led/m	7.2W	DC 12V	120°

### Note:

1. Testing at ambient temperature: 25±2°C ;
2. Above data are typical values. The real test results may be a little different from the typical values. If there is any change with the product, we won't inform again

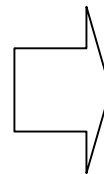

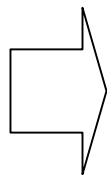

### Features:

### Installation & Application

### Package:

5m/roll  
1roll/bag  
70 rolls/carton  
Gross weight: 5.5KG  
Carton dimension: 52\*30\*22cm(0.03432CBM)
